We Geared Our Mind To Increase Your Productivity & Quality

MISSION

Arindam Engineering wish to delight the customer by manufacturing quality product in time and meeting their requirements by providing in time services.

We always work for delivering Best Manufacturing and Services.

VISION

Arindam Engineering would continue to initiate actions to strengthen the current relationship with customers for long term business partnership.

We are a credible company who can deliver quality job in time. Depending on supporting and trust of our customers, we shall get good achievements, we will live up to other's high expectations, striving to manufacture the best in the field, reviving our nation's industry and create a better tomorrow.

COMPANY PROFILE

Arindam Engineering is such as Pressure Vessels, Storage Tanks, Rope Drums, Heavy Equipment Fabrication, Erection & Commissioning Work, Rolling & Bending work in the field of Heavy Engineering, Material Handling Equipments, Transformer Tanks, Process Plants, Power Plants, Cement Plants, Fertilizer Plant, Chemical Plants Etc.

Arindam Engineering has a Production capacity of 200 Tons. Month with work area of 45,000 Sq Ft.

Periodic execution progress reviews, cost tracking, contingency planning, chasing up engineering, deliveries internal and external documentation.

Plan, Organize, Manage, Lead, and Control Manpower and other resources in the execution while keeping productivity in consideration.

We shall ensure that company's quality policy is effectively communicated, understood at all levels, implemented and maintained.

PRODUCT & SERVICE

- Heat Exchanger, Reactor & Pressure Vessel
- Storage Tanks
- Structural (Main Girder Box and Plate forms) & Pipe Line Fabrication
- Material Handling Equipments
- We are dealing in all type of MOC materials like Carbon Steel, Stainless Steel and Alloy Steel

AREA WE SERVES

- Steel Plant Equipment, Hydro Dam Project's Rope Drum, Chemical Sector, Pharmaceutical, Petrochemical, Waste Water Treatment, Air Plants, Material Handling Equipments, Data Center and Many More.

DESIGN AND MANAGEMENT

- We Design Heavy Equipments, Storage Tanks, Pressure Vessels, EOT Cranes Structural Pipes.
- Design Tools Used: Auto Cad, ANSYS.
- Management Tools Used: MS Project.

STRUCTURAL, PIPELINE FABRICATION & INSTALLATION

Manufacturing & Installation of all types of Heavy Structural Sheds, PEB Structures Equipment, Piping & Installation in all Following Sectors.

- Power Sector
- Steel Plants Oil & Gas Sector
- Petroleum Refineries
- Ports
- Process Industries
